

Sahayak सहायक

Every run says what it cost. Nothing is silently billed.

ENDPOINTS

THE FLOW

WHAT YOU GET

- AI priced in credits you can watch, instead of a bill that arrives later.
- Answers grounded in **your** clients, invoices and documents — not the open web.
- A skills catalogue that says who each skill is for and when to run it.

BUILT IN

- **Refund on failure**, and a per-run cost line. The spend is legible by design.
- **Pinned model versions** — no silent upgrade changing what your firm gets told.
- Web search is a dedicated search provider, so a citation is a real page.
