ENDPOINTS

PF, ESI, PT and TDS — computed by the product, approved by someone else.

THE FLOW

WHAT YOU GET

- Statutory Indian deductions computed rather than looked up.
- **Separated duty** built into the roles, which is the control an auditor asks about first.
- A run you can re-open and re-check before anybody is paid.

BUILT IN

- **PF on the statutory ceiling**, PT on the state slab — the arithmetic your CA would redo by hand.
- **Run and approve are different roles**, enforced by the product, not by trust.
- No payslip exists until approval, so a draft cannot escape.

CONNECTS TO

Manav मानव

Pahchan पहाचान

Ganit गणित

The end of the people spine. Nothing is paid without a second person.
